31st March

Dear Mr Allen,

I hope you enjoyed the South East England Business Awards. Congratulations to you and your colleagues at Primecare Community Service for winning the Excellence in Skills and Development Award and for all the positive work that your organisation is engaged in.

Please see attached a copy of the official winner's certificate.

I would like to share with you some comments from the judges:

Prime Care is very well managed compared with other care companies. Learning and skills is a major part of the company's philosophy. They have very low sickness and low turnover of staff, rare in this sector. Prime Care employs "home helps" that become qualified domiciliary carers. This company has a clear competitive edge over other companies in the home care business. It is a brilliantly well run company in the service sector. Way above national standards. A real team atmosphere.

Thank you again for all the time you put into the Business Awards. I wish you and your company all the success in the future.

Yours sincerely

Ally Charles
South East Business Awards Project Manager
